**The Major (11 courses):** must be declared before 160.0 units (minus AP)

Math 115A+
Math 131A+

Math 170A
Math 170B

or

Math 170A
Math 170B

and

Stats 100A
Stats 100B

Math 172A
Math 174A (or Math 174E or Stats C183/283 or Econ 141)

**One** 2-quarter actuarial sequences chosen from two different categories:

A. Life Contingency Actuarial Models:
   - Math 172B
   - Math 172C

B. Casualty Loss Models:
   - Math 173A
   - Math 173B

**Three** upper division **Actuarial, Economics or Statistics** courses: Math 172B – Math 173B (whichever was not taken for the two quarter sequence), Econ 101 – 199B, Stats 100C

1. __________________ ____________________
2. __________________ ____________________
3. __________________ ____________________

*(Mathematics sequenced courses), ** (Economics preparation courses): Each are calculated separately and must be completed with a minimum overall 2.5 grade-point average and a grade of “C” or better in each course. Repetition of more than two mathematics sequenced courses or of any mathematics sequenced course more than once results in automatic dismissal from the major. Repetition of more than one economics preparation course or of any economics preparation course more than once results in automatic dismissal from the major.

+ “C–”or better. It is strongly recommended that students take Math 115A as one of their first upper division courses before Math 131A.

Note: This plan is for students starting between Fall 2013 to Summer 2014 ([http://www.registrar.ucla.edu/catalog/](http://www.registrar.ucla.edu/catalog/)).

06/2013
