

Symmetry in Mathematics and Physics

Celebrating V. S. Varadarajan's 70th Birthday

UCLA, Los Angeles, USA, January 18-20, 2008

Website: www.math.ucla.edu/symmetry

Scientific Organizing Committee:

S.R.S. Varadhan (Chair) (Courant Institute, NYU)
Enrico Beltrametti (University of Genoa, INFN)
Thomas Enright (UCSD)
Sergio Ferrara (CERN)
K. R. Parthasarathy (Indian Statistical Institute)
Nolan Wallach (UCSD)

Conference Theme: The primary aim of the Conference is the presentation of important recent advances and future trends by leading researchers in the fields of representation theory of finite and infinite dimensional Lie and super Lie groups, and its application to geometry, physics, and differential equations.

Confirmed Conference Speakers:

Enrico Beltrametti
Gianni Cassineli
Vyjayanthi Chari
Charles Conley
Sergio Ferrara
Rita Fiorese

Bertram Kostant
Marian Lledo
J.-P. Ramis
S.R.S. Varadhan
Nolan Wallach
Bruno Zumino

Subject to funding, it is expected that there will be support for a limited number of young researchers and graduate students who do not have any other source of support.
