

Math 151AB: Applied Numerical Methods

- [Math 151A: General Course Outline & Catalog Description](#)
- [Math 151B: General Course Outline & Catalog Description](#)

Math 151AB is the main course sequence in numerical analysis, important for all of the applied mathematics majors. Mathematics majors who graduate and go into industry often find Math 151AB to be the most useful course for their work.

Math 151A is offered each term, and Math 151B is offered Winter and Spring. Recent enrollment statistics for the courses are given in the following tables.
