Suggested Courses for Pre-Med Students

	UCLA's Calculus Series	If you have a 5 on the AB Exam:	If you have a 5 on the BC Exam: *4 on the BC Exam see AB Exam Info.
Applications to Medical School	3 Series	3B,3C, + one additional math	3C, + two additional math
	30 Series	31B,32A,32B or 33A	32A,32B,33A
Additional Math Courses	3 Series	One from: Stats 10 (H), 11, M12, 13, 14 or PIC 10A, 10B, 10C	Two from: Stats 10 (H), 11, M12, 13, 14 or PIC 10A, 10B, 10C

Pre-med students should be aware that many medical schools do not recognize AP Calculus test scores as college unit credit. To fulfill your various major requirements and medical school entrance requirements we have suggested the courses above for you. If your major allows the 30 Series, you may want to consider taking the 30 Series instead of the 3 Series to satisfy the math requirement for virtually any medical school to which you apply. Most medical schools that do not recognize AP units will accept PIC and Stats courses as a substitute for the year of math. It is the student's responsibility to check with the individual schools for specific information.

For more questions about medical school requirements, please feel free to contact the Career Center 501 Westwood Plaza (at Strathmore), Floors Two and Three at (310) 206-1915. You may also go to their web site at www.career.ucla.edu for extensive information on pre-health requirements. Courses in the 3 Series: 3A, 3B, 3C. Courses in the 30 Series: 31A, 31B, 32A, 32B, 33A, 33B.

Once you have credit for 31A/31B through AP credit, transfer credit, or by taking the course(s) at UCLA, you will not receive unit credit for 3A/3B.
