

Math 495 - Using Electronic Resources for Research

Due **11/10/05**

1. Pick a professor in the department.
2. What journals has he/she published in in the past 5 years? Hint: Use MathSciNet first.
3. What is his/her area(s) of research?
4. What other databases are appropriate to these research areas where you can find other articles?
5. Choose one of his/her older articles.
 - (a) Using Web of Science, find out how many times has it been cited.
 - (b) By researchers in what fields has the article been cited?

A (readable and organized) write up of the above tasks and questions is to be turned in at the next meeting.
