

Pacific Life offers multiple Actuarial Summer Internships in Newport Beach and Aliso Viejo, California.

As a prestigious and highly successful leader in the financial services industry, an Internship with Pacific Life will allow you to have the opportunity to experience firsthand the diverse aspects of an actuarial career.

Job Description:

A summer internship with Pacific Life offers exposure to a diverse array of challenging actuarial projects and financial projection platforms such as Access, Excel, VBA and MoSes. Program highlights include:

- Rotational Learning – You will also be invited to a series of presentations in which key Actuaries throughout the company will provide an overview of their department and job duties as well as their experiences as an Actuary. You will have an opportunity to work with fellow interns in different business areas such as Modeling, Risk Management, Pricing and Valuation to gain a broad perspective of companywide projects.
- Mentoring – You will be assigned a Senior and Junior mentor that will meet with you to discuss their knowledge and experience and provide you with guidance on your internship and even your career path.
- On the job training – You will be participating in actuary projects that will give you a true understanding of the Actuary field.
- Training – You will have an opportunity to participate in a large selection of eLearning and instructor lead courses that offer you business training on subjects such as Microsoft Access, Excel and Outlook in addition to critical business skills such as time management and business etiquette.

Internship Qualifications:

We look for undergraduate students majoring in Mathematics, Statistics, Economics, or Actuarial Science with the ability to problem solve and an eye for detail. If you have strong written and verbal communication skills and a desire to gain more experience in the Actuary Field this is the internship for you. Completion of at least 1 Society of Actuary exam is a plus.
