THE BULLETIN OF SYMBOLIC LOGIC
Volume 2, Number 3, Sept. 1996

3rd WORKSHOP ON LOGIC, LANGUAGE, INFORMATION AND COMPUTATION (WoLLIC'96)

CO-SPONSORED BY
THE EUROPEAN ASSOCIATION FOR
LOGIC, LANGUAGE AND INFORMATION (FoLLI)
AND THE ASSOCIATION FOR SYMBOLIC LOGIC (ASL)

Salvador (Bahia), Brazil, May 8–10, 1996

The 3rd Workshop on Logic, Language, Information and Computation (WoLLIC'96) was held in Salvador, Bahia (Brazil), on May 8–10, 1996. The workshop was part of a larger biennial event in computer science held on the campus of the Federal University of Bahia from May 6–10, 1996: the "6th SEMINFO" (6th Informatics Week).

WoLLIC'96 was sponsored by the European Foundation for Logic, Language and Information (FoLLI) and the Association for Symbolic Logic (ASL). Further institutional support was received from the Sociedade Brasileira de Computacao (SBC), and additional funding was also given by CNPq (Ministerio da Ciencia e Tecnologia), CAPES (Ministerio da Educacao e do Desporto), and FINEP (Ministerio do Planejamento).

The Program Committee consisted of: W. A. Carnielli (UNICAMP, Campinas), M. Costa (EMBRAPA, Brasilia), V. de Paiva (Cambridge University, UK), R. de Queiroz (UFPE, Recife), A. Haeberer (PUC, Rio), T. Pequeno (UFC, Fortaleza), L. C. Pereira (PUC, Rio), K. Segerberg (Uppsala University, Sweden), A. M. Sette (UNICAMP, Campinas), and P. Veloso (PUC, Rio). The Organizing Committee consisted of: H. Benatti (UFPE), L. S. Baptista (UFPE), A. Duran (UFBA), T. Monteiro (UFPE), A. G. de Oliveira (UFBA), and N. Riccio (UFBA). There were ten invited talks:

Andreas Blass (Ann Arbor), *Some semantical aspects of linear logic*.

Nachum Dershowitz (Urbana-Champaign), *Trees, ordinals, and termination*.

J. Michael Dunn (Indiana), *Proof theory and semantics for structurally free logics*.

Peter Gärdenfors (Lund), *Three levels of knowledge representation*.

Jeroen Groenendijk (Amsterdam), *Update semantics meets discourse*.

Wilfrid Hodges (London), *Semantic games of imperfect information*.

Roger Maddux (Ames, Iowa), *Sequential algebras*.

Andrew Pitts (Cambridge), *'Logical' relations between syntax and semantics*.

Amir Pneuli (Rehovot), *Verifying timed and hybrid systems*.

Michael Smyth (London), *Topological relational structures*.

There were twenty-seven other talks presented at the meeting, which was attended by over seventy participants. The abstracts of papers presented at the meeting have been published in the *Journal of the Interest Group in Pure and Applied Logics*, Volume 4, Number 3 (`http://www.mpi-sb.mpg.de/igpl/Journal/V4-3`). A special issue of the *Journal*, to be published later in 1996, will include the invited papers and a selection of the contributed papers.

For the Program Committee
