

Mathematics Faculty Teaching Evaluation
Fall Quarter 2006

BISKUP, M.

The questions were:

1. How would you rate your instructor as an effective teacher?
 2. How would you rate the availability and helpfulness of your instructor outside of the classroom?
 3. What is your rating of this course independent of the effectiveness of the instructor?

FALL QUARTER 2006

BISKUP, Marek

MATH 275A, LEC 1 PROBABILITY THEORY

9-9-8

The professor was efficient, clear and enthusiastic in class. The are suggestion I would make is to go a little slow on hard iclees and not just explain them in words.

8-9-8

Very helpful. I really learned a lot this quarter. Thank you for all the time you put in.

9-9-9

Encourages questions. Links many mathematical concepts and explains things well for people of different backgrounds.

9-9-9

Great lecturer, very easy to follow.

8-4-8

I like this class and the subject a lot, but I often felt rushed. I wish we had less homework so that there would be more time to focus and learn things better.

7-8-7

I think the measure theory should be practically eliminated and the probability concepts dilated to more of the whole quarter (most of us have taken 245). The homework should also scaled back; beyond a certain point, I don't think we learn anything by rushing through 15 fiddly random variable problems instead of actually understanding half that number.

8-7-9

As a non-Math Dept student, I benefited greatly from Prof Biskup's enthusiasm and generous office hour tutron.

9-9-8

Really enjoyable class. Only complaint is the homework would be just as useful as a learning tool if they were halved in size with efficient selection at questions, the size of the homeworks seriously detracted from my ability to learn in other classes.

7-8-8

In general very good instruction. Don't like the book very much though.

8-5-7

Not a Big Fan of Durrett.

8-8-9

I think this is a course by a lot of applications so the instructor should focus on application a little bit more.
