

Mathematics Faculty Teaching Evaluation
Fall Quarter 2005

BISKUP, M.

The questions were:

1. How would you rate your instructor as an effective teacher?
2. How would you rate the availability and helpfulness of your instructor outside of the classroom?
3. What is your rating of this course independent of the effectiveness of the instructor?

FALL QUARTER 2005

BISKUP, Marek

MATH 275B, LEC 1 – Probability Theory

9-9-9

It was a wonderful course-together with 275A, I have learned most out of any two-course partial sequence at UCLA.

8-9-8

The Grad level Probability part B class is a very interesting class. The materials are very fun and very practical (unlike other pure math classes). It is a very vigorous and difficult class. Prof. Biskup is a very good lecturer, he genuinely care about student's progress, plenty of time available outside of class to answer questions. Highly recommended. (If you don't mind the long and painful HW assignments)

9-9-9

Great course.

9-6-8

Later homeworks much better than earlier homeworks.
