## Academic Positions

Assistant Adjunct Professor, University of California, Los Angeles, 2007–Present  
Courses Taught: Linear Algebra, Combinatorics, Multivariable Calculus Organizer, Number Theory Seminar, 2008–Present

Teaching Assistant, University of California, Berkeley, 2004–2007

Teaching Assistant, Harvard University, 2000–2002

## Education

Ph.D. Mathematics, University of California, Berkeley, 2007.

A.B. Mathematics, *magna cum laude*, Harvard University, 2002.

## Grants

NSF Postdoctoral Research Fellowship in the Mathematical Sciences, awarded 2007.

NSF Graduate Research Fellowship, awarded 2002.

## Research Fields

Number Theory, Automorphic Forms, Representation Theory

## Refereed Publications

*Hilbert Modular Forms with Prescribed Ramification*, International Mathematics Research Notices, January 2009.

*Beyond Value at Risk: Forecasting Portfolio Loss at Multiple Horizons*, with Lisa Goldberg and Guy Miller. Journal of Investment Management, 2008.

## Other Papers

*The Local Jacquet-Langlands correspondence via Fourier Analysis*, preprint, 2008.

*Automorphic Representations with Local Constraints*, UC Berkeley Ph.D. dissertation, 2007.
