Video viewing assignment

After you view your video, please answer the following questions and give this form to your TAC.

1. What quirks or tendencies did you notice that you did not know you had?

2. What’s something you did that you did very well, perhaps better than you expected?

3. What is the area you feel which you need the most improvement?

4. What’s the most surprising difference between what you saw and what you expected?

On the back, please describe what the value watching this video has had for you, and what effects (if any) it will have on your future teaching efforts.
