**The theory of Liouville functions**

Eric Rosen, UIC

This will be the first in a series of talks about the paper *The theory of Liouville functions*, Journal of Symbolic Logic **68** (2), pp. 353-365, 2003, by Pascal Koiran. He gives a complete axiomatization of the theory of the complex field augmented by a Liouville function. The paper can be downloaded from his web page
