

Math 33B Lecture 1

Homework 1 – Due Oct. 3

From the textbook:

Section 1.2: #6,8,12,16

Section 1.3: #20

Section 2.1: #8,12,24

Note: For #8d only do the case $C = 1$. For #12, don't bother to sketch the solution. For #24 probably the easiest program to use is the java applet dfield at: <http://math.rice.edu/~dfield/dfpp.html>

Section 2.2: #12,14,18,26,28,34
