Please use the space provided for any comments you wish to make which are pertinent to the educational process. These may include all aspects of the course: teaching, examinations, grading, textbook, etc.

- Definitely recommended TA! Knows how to condense the material down to what is definitely important to remember and what is not as much so, and knows how to clearly convey the important material well. Helps well with the hw assignments, and is accommodating with their due dates as well!

- Discussion section was always very helpful. Eric condensed the material of each week and presented it to us in a very clear, understandable manner. I always felt that I had a better grasp of the material after discussion section. He was also very helpful outside of section. He was willing to meet my friend and I before his office hours since we couldn't make those.

- Good instruction and nice examples. Just have better time management to get through all of it.

- He's very good at reinforcing important ideas. His discussion sections are organized which were very helpful.

- I liked the examples the TA did in class.

- the t.a. used the time efficiently, he went over the material covered in lectures during that week plus he went some homework problems. He seem to know much about the material, and he was very patient when it came to students asking questions during discussion. homework grading was fair and straightforward, he was available outside the classroom and even more helpful, since it was a smaller setting and more straightforward than during discussion. I would recommend him and the course.

- very helpful. great TA
