- Section 5.4: 20, 22, 26, and 32.
- Chapter 5 true/false problems (p. 263): 16, 18, 20, 29, and 36.
- Section 6.1: 32, 34, 38, 42, 44.

Problem 1. Find parameters c and d so that the model

$$y = c2^t + d3^t$$

best fits the following measurements:

t	0	1	2
y	31	31	93
