He's the best TA I've had at UCLA. This is coming from a 5th year who experienced his share of TAs. He's a very nice guy overall, very approachable. He is the first TA who doesn't assume we know everything and makes sure no one is confused. He is the only TA who made PDF handouts for the students! He is very reliable and I just can't give him enough praise with regards to his professionalism and courtesy in all things he has done for his students. Thanks Igor.

9-9-9

Igor is an outstanding TA. He teaches the material very well and is always available for question. He helps a lot with the HW, making the class much less intimidating overall. I always felt discussion sections were well worth the time they took.

8-9-7

He's quite helpful and prepares well for the section. Makes nice handouts and HW solutions, great TA!

9-9-8

Math 151B is much more interesting than 151A, the TA was very helpful and always around; one of the best and nicest TAs I've had at UCLA.

8-9-8

Very good teacher's assistant, concerned with student's learning and extremely helpful outside of class. Good teacher overall.

8-8-7

Igor, you were very helpful in all questions that I had. I wish I could have used you as a resource more to help me master the material better. Thanks a lot.

8-9-6

Igor is probably the nicest most approachable and willing to help TA at UCLA. He will do whatever he can to accommodate his students, which is great. He also clearly explains things we need to learn. Overall, he is a great TA.

Igor did an excellent job considering how complex the HW was. He was attentive and available.

9-9-7

Igor was one of the best TAs I've had at UCLA. He had a very good understanding of all the assignments. He was always at lecture. He was helpful outside of class. His only fault was he may have been too helpful. Also, smiley faces on homework were encouraging.

8-9-7

I think the discussion session was successful since it helped me to understand the material better and also since the project was made out of all the HW it was necessary to keep up with the work every week. Thanks for the help, it was great! ☺

I really enjoyed the discussions; they were clear and well planned. Very helpful as a TA, he helped make this class understandable.

7-8-8
