NOTICES

- THE 2006 SACKS PRIZE AWARDED TO M. VIALE. The ASL Committee on Prizes and Awards has selected Matteo Viale of the the University of Torino and the University of Paris 7 as the recipient of the 2006 Sacks Prize. Viale received his Ph.D. in 2006 from the University of Torino and the University of Paris 7, under the supervision of Alessandro Andretta and Boban Velicovic. The Committee's citation reads: "Viale's thesis makes fundamental contributions to our understanding of the consequences of forcing axioms in the combinatorics of singular cardinals. In particular, it solves a well-known problem, by showing that the Proper Forcing Axiom implies the Singular Cardinals Hypothesis." The prize consists of a cash award plus five years free membership in the ASL.
