There are no "positions" on this list. If a student with higher priority also requests the class, the student with higher priority will be enrolled first if there is space.

The Mathematics department will contact students individually by e-mail when space becomes available. Students will have to be given time to confirm that they want to be enrolled in the class.

"Open" means that students can self-enroll into the class in MyUCLA as long as they meet the pre-requisites for the class. If the student does not meet the pre-requisites, they must email the instructor to request for permission to enroll in the class. If the instructor approves the request, the student must forward the email to ugrad@math.ucla.edu and we will manually add them to the class if there is space.

We will not increase enrollment capacity for a class if other lectures are offered and are still open.
