## California Department of Insurance

---

The California Department of Insurance (CDI) was created in 1868 as part of a national system of state-based insurance regulation. The insurance market place has changed dramatically over time, but consumer protection continues to be the core of CDI's mission. Today, CDI is the largest consumer protection agency in the state. With annual direct premiums of \$288 billion, California is the largest insurance market in the United States and the sixth largest insurance market in the world.

Nearly 1,400 dedicated employees work at CDI to oversee more than 1,300 insurance companies and license more than 400,000 agents, brokers, adjusters, and business entities. In the normal course of business, CDI annually processes more than 8,000 rate applications, issues approximately 190,000 licenses (new and renewals) and performs hundreds of financial reviews and examinations of insurers doing business in California. CDI annually receives more than 170,000 consumer assistance calls, investigates more than 37,000 consumer complaints and, as a result, recovers more than \$84 million a year for consumers. CDI also annually receives and processes tens of thousands of referrals regarding suspected fraud against insurers and others and conducts criminal investigations resulting in thousands of arrests every year.

Capital Insurance Group (CIG) is a leading regional property and casualty insurer serving the Western U.S. since 1898. Our company is known for providing trusted insurance products for the personal, commercial, and agricultural business segments, with an emphasis on property-related exposures. We partner with a trusted network of independent insurance agents who share our regional expertise and passion in order to provide policyholders with unmatched service and quality.

We are looking for Actuarial Interns to work with us this summer and possibly continue into the winter semester. The role of the Actuarial Intern is to collect information, perform actuarial analyses, and communicate results to key stakeholders. Projects assigned may come from multiple actuarial disciplines and all work will be supervised.

Recruitment: October to November for two intern candidates

This purpose unites our colleagues around the world, and these principles reflect our commitment to the individuals and families whose lives we impact every day.

Oliver Wyman

The Actuarial Consulting Practice of Oliver Wyman advises clients across a broad spectrum of risk management issues. We are a rapidly growing practice with 16 offices across North America and the Caribbean. Our staff of over 200 professionals includes team members with the highest professional qualifications and nationally recognized experts.

Oliver Wyman's Los Angeles office provides Property and Casualty (P&C) actuarial consulting services. P&C deals with many types of insurance that you may be familiar with, such as auto, home, product defect, workers' compensation, and legal and medical malpractice.

Our firm provides services such as developing premium rates, estimating unpaid claim costs, designing insurance products, modeling and forecasting risks, allocating capital and providing strategic advice. We help our clients to financially and strategically prepare for the future with regard to the risks that they bear. Using modeling techniques, we are able to offer solutions to reduce the financial impact of undesirable events as well as the likelihood that these events will occur.

Recruitment: We will be conducting telephone interviews in October and in-person interviews in late October/early November.

Office represented: Los Angeles (Downtown)

We are looking for individuals with superior analytical and mathematical skills, with the ability to effectively communicate both orally and in writing. Candidates must have the intellectual curiosity to solve business and analytical problems — independently and as part of a team. Candidates will have passed at least 1 actuarial exam.
