Page 113. Prof. Detlefsen's talk at the 30th Anniversary Conference of the Australasian Association for Logic was not correctly identified as an invited lecture, and an unfortunate typographical error garbled the reference to Löb's Theorem in his Abstract. The corrected version of Prof. Detlefsen's Abstract is as follows:

▶ MIC DETLEFSEN, *Powers of reflection, frames of mind: Löb's theorem and the mechanization of human reasoning*.

Philosophy Department, University of Notre Dame, Notre Dame, Indiana 46556, USA.
E-mail: detlefsen.1@nd.edu.

In this paper I argue that Löb's Theorem implies a limitation on our knowledge of mechanism.
