THE BULLETIN OF SYMBOLIC LOGIC
Volume 6, Number 3, Sept. 2000

NOTICES

- ASL STYLE FILE AVAILABLE. ASL publications are typeset in a version of $\mathcal{A}\mathcal{M}\mathcal{S}$-LaTeX using a style file which is now posted on the ASL web site, at `http://www.aslonline.org`, together with instructions for its use. Authors preparing manuscripts for submission to any ASL publication are encouraged to use LaTeX with this style file. These publications include *The Journal of Symbolic Logic* and *The Bulletin of Symbolic Logic* as well as book series such as the *Lecture Notes in Logic*. In addition, abstracts of talks at ASL meetings are typeset using this style file, and speakers are encouraged to prepare their abstracts using it.

- ASL SECRETARY-TREASURER. The ASL Executive Committee has appointed Charles Steinhorn of Vassar College as ASL Secretary-Treasurer, to replace C. Ward Henson, who is stepping down this year after serving since 1983. Henson will continue to serve as ASL Publisher, as has been previously announced. Steinhorn will assume the position of Secretary-Treasurer on September 30, 2000. During the Fall the ASL office will move from the University of Illinois at Urbana-Champaign to Vassar College.

- NEW JOURNAL: THEORY AND PRACTICE OF LOGIC PROGRAMMING (CAMBRIDGE UNIVERSITY PRESS). In November 1999, the complete Editorial Board of the *Journal of Logic Programming (JLP)* of Elsevier Press (50 editors in total) collectively resigned after 16 months of unsuccessful negotiations with Elsevier Press about the price of library subscriptions. They founded a new journal, *Theory and Practice of Logic Programming (TPLP)*, with the Cambridge University Press (CUP). The first issue of *TPLP* will appear in January 2001. The Association for Logic Programming, acting in full cooperation with the former Editorial Board of the *JLP*, withdrew its support for the *JLP* and adopted *TPLP* as the sole official journal of the ALP. For further information, write to Krzysztof R. Apt (email: `k.r.apt@cwi.nl`), President of the Association for Logic Programming.

- Rules for Abstracts. Please note that abstracts of contributed talks at ASL meetings (including those submitted "by title") *must* follow these rules; abstracts which do not conform to these requirements will be returned immediately to the authors submitting them. Revised abstracts which do follow these rules will be considered if they are received by the announced deadline.

  Abstracts of contributed talks are limited to 300 words (about three quarters of a page in the standard, 11pt LaTeX article style), including the title and other heading material and the references. They must be submitted in hard copy by ordinary mail or in a *plain text* email message. Electronically submitted abstracts should be either plain text or in PostScript format; special word processor files (MS-Word, WordPerfect, etc.) will not be accepted. Abstracts that are produced using TeX should be fully processed by the author and submitted as a PostScript file. Care should be taken that abstract files attached to an email message are included as *plain text* and not in some coded format.

  To ensure accurate and timely typesetting: (1) Each abstract submission must include the complete address of at least one author, including an email address, or a statement that no email address is available. (2) Abstracts may not include drawings or footnotes. (3) The references must be complete: author, title, full name of journal, year, volume, page numbers; for a book, complete publisher data. Typesetting is done immediately after the submission deadline, so abstracts should be in final form when they are submitted. A typeset booklet containing the abstracts will be distributed to participants at the meeting. Galley proofs are given to authors at the time of the meeting or before, and must be corrected, approved, and returned immediately after receipt; no changes other than corrections of typesetting errors may be made.

  For ASL meetings in North America, at least one author of each contributed abstract must be an ASL member; this does not apply to the ASL European Summer Meeting. Abstracts are published as part of the meeting report in *The Bulletin of Symbolic Logic* only if at least one author is a member of the ASL at the time the report is sent for publication. Each set of authors may submit only one abstract to each ASL meeting.
