- Cecelia was a very approachable, knowledgeable, and helpful TA. Her office hours and discussion section helped me to understand the homework questions better. This helped me to become more successful in the class.
- Discussion was extremely helpful with understanding the material that is currently being taught in class. The TA that I had in particular was amazing and was extremely supportive of all her students. She fostered a welcoming learning environment and hosted office hours twice a week, both of which were extremely helpful for understanding the homework. I would strongly recommend choosing to enroll in this TAs discussion for future students.
- Excellent TA!
- Very knowledgeable in the topic and made it fun to attend discussion.
