- My TA was great in all aspects! I learned more from her than the instructor.
- She was really helpful.
- The TA was always super available to answer questions and her explanations in discussion were very clear.
- The TA was really interested on the topics and provided clear and useful examples for the topics we did in class. She was always available for anyone who was seeking for help and didn't understand the course material.
- Was not much different than lecture, it was different because the discussions were online so it was difficult to engage
