 Response Rate = 19.44%

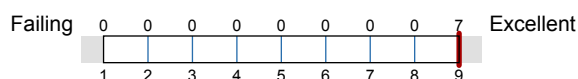

1. UCLA Department of Mathematics:

1.1) How would you rate your TA as an effective teacher?

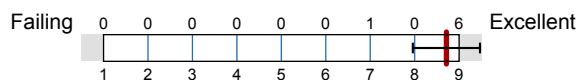

n=7
 av.=9
 md=9
 dev.=0

1.2) How would you rate the availability and helpfulness of your TA outside of the classroom?

n=7
 av.=9
 md=9
 dev.=0

1.3) What is your rating of this course independent of the effectiveness of the TA?

n=7
 av.=8.71
 md=9
 dev.=0.76

2. Comments:

2.1) Please use the space provided for any comments you wish to make which are pertinent to the educational process. These may include all aspects of the course: teaching, examinations, grading, textbook, etc.

- Cecelia is phenomenal as a TA. She is kind, thorough, and always willing to put in the extra effort for her students. What I especially love is how she teaches content from the week before we begin our independent work— it has helped me tremendously. She is great at communicating with the students, the LA's, and the professor.
- Cecelia was probably the most supportive TA I have had at UCLA thus far. She was incredibly accommodating and made sure to go above and beyond so that every student could succeed. While I did not utilize her office hours, she made sure to remind everyone to attend both her office hour and SMC hour, which made me feel like I was being supported in seeking help outside of class.
- My TA was clearly passionate about teaching, and was very helpful in answering questions I had as I worked through worksheets during discussion.
- One of the best TAs I've had at UCLA. She prepares her own mini lecture going over the most important points and does a great job bringing concepts down to earth for confused students.
- She is an excellent TA. She is always on top of the course material and even lectures during the first half of discussion to make sure that we understand the concepts.
- She is very knowledgeable on course material.
- was so great!!
