- Amazingly encouraging when it comes to learning material. She also proves to be willing to go through great lengths (email and office hours) to provide students with help they made need. She involves students in discussion and is overall an amazing TA.

- Cecilia was great! Had amazing clarity

- Cecilia was very helpful and always easy to communicate with over email. She cared a great deal about our learning of the material and held multiple office hours a week to meet with students. She might benefit from making our discussions a bit more interactive, though.

- Great and clear examples in discussion sections, she did an amazing job

- Higgins was an ideal TA: understanding, patient, and helpful with any problem that arose.

- I like Cecilia. She does her best to explain her process. She answers everyone's questions as best she could. She records and uploads her notes in every discussion section. I think she's going in the right direction. I understand more from her than from my instructor.

- I like the TA's attentiveness to every student, and the learning. She does a really good job in choosing appropriate topics and problems straight from the textbook to help us review material and explain once more lecture topics.

- Lectures were very difficult to follow but discussion sections with Cecilia allowed me to understand the material and she did everything in her power to make sure we had adequate time to understand the material and ask questions.
- N/A
- She is very knowledgeable and kind.
- She's fine.
- TA was well versed in her topics and was easily able to solve the questions and answer those from the students as well. She provided extra office hours and study sessions to aid those who required. In general, she fostered a friendly atmosphere that promoted questions and learning.
- This course was impossible online.
- Very helpful and allowed me to better understand the subject while the class itself was very difficult.
- Very helpful and always giving us opportunities to get additional help
- good at giving notes and recording lessons
