Math 61: Introduction to Discrete Structures

Syllabus

Instructor: Eden Prywes

Email: eprywes@math.ucla.edu

Office Hours: Monday 2:00-4:00 PM, Wednesday: 2:00-3:00 PM in MS 6154

Course Location: MS 6229

Course Time: MWF 1:00-1:50 PM

Course Webpage: https://www.math.ucla.edu/~eprywes/61w19

Teaching Assistant: Albert Zheng

Discussion Section: Thursdays 1:00-1:50 PM in MS 6229

Course Outline: https://www.math.ucla.edu/ugrad/courses/math/61

Prerequisites: 31A, 31B

Course Material: Chapters 1, 2, 3, 6, 7, 8 and 9 in Johnsonbaugh’s book.

Exams:
There will be two midterms in class and one final exam.
• The first midterm will be on January 28th.
• the second midterm will be on February 25th.
• The final exam will be on March 20th from 11:30 AM - 2:30 PM.

Homework:
There will be weekly problem sets posted on the webpage on Friday due the next Friday in class. Late homework will not be accepted. When handing in homework please staple the pages together. Students may work together but must hand in homework that is individually written up. If you work with another student please mention that on your handed-in assignment.

Grading:
There will be two grading schemes. You will receive the higher score of the two:
• 10% homework, 25% midterm 1, 25% midterm 2, 40% final.
• 10% homework, 35% highest midterm score, 55% final.
The lowest homework grade will be dropped.

If you would like a regrade on any exam it must be requested within 2 weeks of the exam date.
