- Great TA. He can explicitly explain everything that the professor can't.
- Honestly, Ben is the savior for me in this class. They explained everything super clearly and with really strong logic and accurate and concise definition. I personally didn't watch lectures for the last few weeks but only watched the recording of the discussion and then went back to the notes from the lecture. It was a lot more helpful to watch Ben's discussion when I tried to understand the course material, the homework, and the tests. I think they are an excellent TA!
- None
- The TA is really helpful and trying his best to make this course manageable. He answers my questions in the email and during office hours. I feel so glad that I have them as my TA.
