- Apologies for calling you John in an email. The problems presented in class were helpful in completing the homework.

- Ben did a very good job overall. In fact I believed that I learnt most part of the class in his discussion sections because the lectures are so disorganized and confused. It is very great that in the worksheet he will always summarize the contents, which help me a lot. He is also very helpful in the office hour.

- Ben was great! I really appreciated Ben's office hours in particular, which I tried to go to every week. I thought it was well managed, as every student got a fair amount of time to ask questions. Ben's responses were always very clear and provided me with the answers I needed. Thank you Ben :)

- Clear lecture. Give me a lot of help

- Good ta, sometimes they don't record all of the discussion which would be nice

- Great TA!!

- Really enjoyed the class and the section. Great job!

- The TA was amazing. He was so thorough when reviewing the week's lesson and did it in a efficient way by working through hard problems.

- They were extremely helpful and organized. The weekly sheets made learning the concepts so much easier. Additionally, they were very welcoming of questions during discussion.

- Working out problems were very helpful, just keep doing that
