1. UCLA Department of Mathematics:

1.1) How would you rate your instructor as an effective teacher?

Failing — Excellent   n=15   av.=8.53

1.2) How would you rate the availability and helpfulness of your instructor outside of the classroom?

Failing — Excellent   n=15   av.=8.53

1.3) What is your rating of this course independent of the effectiveness of the instructor?

Failing — Excellent   n=15   av.=8.00

Comments Report

2. Comments:

2.1) Please use the space provided for any comments you wish to make which are pertinent to the educational process. These may include all aspects of the course: teaching, examinations, grading, textbook, etc.

- Michael you're an excellent professor, you make math fun, you care, and you're chill! It's relieving to have a professor that is motivated for the students to learn. In terms of the class, this class made me realize I'm more interested in Algebra. Hope to see you around next quarter.

- I think the course material is very difficult but I don't think the professor could be more clear or concerned. GREAT PROFESSOR. really enjoyed this course and found it very interesting and entertaining. Very engaging

- Michael is hands down the best math professor I've had at UCLA. This class is what convinced me to switch to the Pure Math major and what go me excited about pursuing more rigorous math. He is all about getting students to actually learn the material, which is refreshing.

- Michael was great. His lecture notes that he typed up were extremely helpful, and he gave lots of helpful examples in class. He made analysis a great class, and I'm sure there are very few professors who can make that happen.

- This teacher is by far the best teacher I have had at UCLA. He is very passionate about the subject and cares about his students. He always goes out of his way to help all his students, and would often hold many extra office hours to help students. He takes a course that is known to be very difficult, and makes it easier to understand the material and keeps students engaged with his sense of humor.

- Very helpful and explains material well.

- very good at lecturing and enjoyed the class a lot ! BEST TEACHER I'VE HAD AT UCLA!
