- Great TA, address the issue on time and make the question easy to understand!
- He is an excellent TA!
- Our TA Raymond is really helpful. He helps us a lot in discussion to clarify certain doubts. in office hour he also helps with our hw and gives us a lot of hints. Thank you Raymond!
- Raymond is a great TA! Very knowledgeable and helpful, he even offers to help answer any questions we have about REU's and UCLA math classes, which I really appreciate. I enjoyed going to discussion, and it helped me a lot when doing homework. The only thing I'd say is that sometimes he goes a little too fast. But overall, an excellent TA!
- Raymond is very patient and nice! Raymond always answers questions quickly through emails. The discussion sections are also very helpful!
- Raymond was a great TA and was very helpful during his office hours. He helped me a lot with homework problems, understanding the material, and shared his experiences with applying to grad schools at the very end of the quarter which I found to be very valuable.
- Raymond was a very helpful TA. The material covered in section was incredibly useful throughout the quarter and he explained the material in a very understandable way. His availability outside of section was also fantastic and I really appreciated how often and quickly he answered student's questions on piazza.
- Raymond was very kind and had extremely organized notes in discussions. His office hours were accommodating and he would always be willing to help or answer questions. I thought he was clear in

grading and I have no complaints at all

- Raymond's discussion sections were super helpful in deepening my understanding of the course material, and his notes were beautiful (honestly I was kind of shocked by how neat his handwriting is). I really appreciate his willingness to help students outside of class, both through his attention to the Piazza and through the extra office hours, and I was very thankful that he posted notes from his office hours online. Overall, an awesome TA!
- Very good and helpful. Really appreciated his examples and him posting his code for us to review.
- great TA experience!
- very nice
