

# To our corporate partners,

**Welcome to UCLA's Undergraduate Mathematics Student Association (UMSA):** the premier UCLA Mathematics affiliated student organization on campus. We are thrilled to extend an invitation for partnership during the 2025–2026 school year and to build a brand-new collaboration between your distinguished organization and UCLA's UMSA.

UMSA is home to a group of highly motivated students with exceptional academic backgrounds who share a passion for mathematics, data science, and quantitative problem-solving. By partnering with us, your organization will gain direct access to this pool of emerging talent while enjoying exclusive benefits designed to connect you with some of UCLA's brightest minds.

Your support helps power our flagship programming, including:

- UMSA's Annual Integration Bee: co-hosted with USC's Undergraduate Mathematics Club, where students compete in solving rapid-fire integrals
- Professor Talks: a recurring series where world-class UCLA faculty present their cutting-edge research, inspiring students interested in pursuing academia

In addition, our strong network, through both social media and email outreach, reaches an audience of 1,500+ impressions per post. This visibility ensures that your partnership not only supports student development, but also elevates your brand among UCLA's quantitatively skilled student body.

Please feel free to reach out with any questions at [umsa@ucla.edu](mailto:umsa@ucla.edu). We're ecstatic to work with you!

Best Regards,

Emily Ni (Co-President)  
Natalie Liu (Co-President)  
Brendan Connelly (Vice President)
